## What is G20, and what is India's role in 2023?

It was the month of December of the year 2022 when I got to know that India had been given the G20 presidency for 2023.

Being an Indian, I felt very proud and was very happy to know about it. I was very excited too.

Well, I believe that G20 India is showcasing the talents and amazing ideas that we have. It is a "golden opportunity" for all the Indians.

India is very actively working with the G20. In various different schools and colleges, opportunities were given to the students with regards to the G20.

Being a school student myself, in my school, various different competitions were organized, like a G20 logo-making contest and a G20 drawing contest.

## What is the G20?

G20 basically means Group of Twenty, and here Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, the Republic of Korea, Mexico, Russia, Saudi Arabia, South Africa, Türkiye, the United Kingdom, and the United States are the members. Together, they represent around 85% of the global GDP, over 75% of the global trade, and about two-thirds of the world population. Also, it works to address major issues related to the global economy, such as international financial stability, climate change mitigation, and sustainable development.

As of this year, i.e., 2023, India is holding the G20 Presidency after Indonesia. This year's G20 India tagline is "One Earth, One Family, One Future" (Sanskrit: वसुधैव कुटुम्बकम्, lit. The World Is One Family).

The G20 will be handed over to Brazil in November 2023, when India's Presidency concludes.

In conclusion, I would like to add that G20 India 2023 will definitely create some difference in the world for its better future.
